By train

The hotel is directly outside the main entrance to Maastricht station.

By bus

Most buses go to Maastricht railway station stopping immediately outside the hotel. There are also frequent international services, e.g. half-hourly to Aachen in Germany.

By car

By car from Eindhoven/Liege via the A2 - Follow the signs 'Wijk 21' and 'Station'. The hotel is situated opposite the station. There is a set down zone in front of the hotel where you can park while checking in. Parking space can be reserved in advance by phoning the hotel. There are also a number of Q-Park car parks in the vicinity.

By air

By air - The closest major airports are Amsterdam Schiphol (AMS) and Brussels (BRU).

From **Schiphol**, there are generally four trains per hour changing in either Sittard or Utrecht, journey time around 2hrs 40mins - www.ns.nl. We recommend the trains leaving at xx.00 and xx.30 via Utrecht. The connection in Utrecht is 4 minutes which is enough time in Holland. If you miss your connection, buy a coffee - the next train will be along in 30 minutes.

From **Brussels** Airport, there is an hourly service by train changing in Leuven and Liege, journey time around 1hr 35mins - www.sncb.be (select Brussel-Nat-Luchthaven and Maastricht (nl) when asked to in the list of stations).

Example train connections

Trains in Holland and Belgium generally run at the same minutes past each hour. Please check these closer to your date of travel.
